

The 2018 New American Home Case Study

The 2018 New American Home, described as having a “Modern Tuscan” style, was built in the Bella Collina golf community outside of Orlando, FL. The home has two levels, each designed to have a distinct identity.

The design-build team from Legacy Custom Built Homes incorporated a variety of earthy textures to create a sophisticated comfort throughout the 6,676-square-foot home. TruStile Doors provided an array of modern interior doors which connected the flow of the design from room to room.

Off the main entrance, an open concept floor plan connects the living room, kitchen, bar and dining area.

Upon entering the home, visitors walk into an open concept floor plan that connects the living room, dining room, bar area, and kitchen.

TruStile's Tru&Modern TM13340, in walnut with a Cappuccino finish and Frosted glass inserts, is used in a variety of applications for all the rooms adjacent to the main entryway on the first floor.

TM13340 barn door on left leads to laundry room. Door on right leads to powder room.

TM13340, in walnut with Frosted glass inserts, leads to the master suite.

Grand 10' tall TM13340 doors open to the home office (left) and powder room (right).

TM13340 door is used as a partition in the main floor powder room.

A pair of 10' tall TM13340 doors open to a luxurious home office.

A 10' tall barn door opens to a game room.

An impressive pair of 10' tall doors open to the home office, a matching divider is featured in the powder room, and a stunning 10' tall barn door slides to reveal the game room.

Master bedroom suite with TM13340 in MDF with Frosted glass inserts.

In the master bath a TM13340 pocket sliding barn door provides privacy for the water closet while allowing in additional light.

In the guest bedroom a TM13340 sliding barn door opens to the closet, the larger wood door opens to the shared living space. The use of size and material is an effective way to delineate space.

TM13340 doors continue to serve as a cohesive design element in the private and lesser used spaces on the first floor. The size of the doors has been scaled down to a more intimate 8' height and the construction switched to more economical paint-grade MDF.

Most TruStile doors are available fire rated, making it possible to use the TM13340 for the maintenance room leading out to the garage.

A TM13000 (left) leads to a guest bedroom; a row of TM13170 doors with Edelman[®] Sulky Bridle leather line the hallway on the second floor.

A pair of TM13170 barn doors with Edelman[®] Sulky Bridle leather open to the family room.

Guest room with TM9420 pocket door in MDF with Satin Barcode glass inserts.

A TM9420 barn door, in MDF with Tuxedo glass inserts, opens to a guest room bath.

The second level of the home uses a variety of door styles from the Tru&Modern collection in paint-grade MDF. The similarity between the door styles maintains a cohesive overall design while a variety of material inserts give each space its own unique feel.
